

Thursday, December 7th, 2017, 14:45 - 15:45

Satellite Symposium

Venue:

International Conferencing and Entertainment (ICE)
17 Marii Konopnickiej Street, Krakow, Poland

LUNCHEON SESSION I ABBOTT

GREEN ROOM A 3RD FLOOR

What is the optimal treatment of the patient in complex PCI ?

1. When and why we should use FFR for better patient outcomes ? NFZ reimbursed indications vs daily practice. - **Dr hab. med. Janusz Kochman, Warszawa**
2. How I can improve PCI outcomes using OCT ? (OCT) - **Prof. Wojciech Wojakowski, Katowice**
3. How innovations may facilitate patient care ? - **Prof. Dariusz Dudek, Krakow**
4. Discussion

LUNCHEON SESSION II PHILIPS IGT DEVICES

YELLOW ROOM B 3RD FLOOR

IMPLEMENTATION OF THE PRECISION GUIDED PCI INTO EVERYDAY CLINICAL PRACTICE – CASE BASED DISCUSSION

Moderators:

Jacek Legutko (Krakow, Poland) , Robert J. Gil (Warsaw, Poland)

Case presenters:

Tomasz Pawłowski (Warsaw, Poland), Paweł Kleczyński (Warsaw, Poland)

The role of FFR/iFR and IVUS in patient with complex, diffuse, multivessel disease

Tomasz Pawłowski: case presentation (10 min.)

Moderated discussion with the audience (10 min.)

Robert Gil: summary and take-home message (10 min.)

The role of FFR/iFR and IVUS in patient with left main disease

Paweł Kleczyński: case presentation (10 min.)

Moderated discussion with the audience (10 min.)

Jacek Legutko: summary and take-home message (10 min.)

1. "Percutaneous Circulatory Support in Cardiogenic Shock and High-Risk PCI" – **dr Florim Cuculi**
2. "FFR measurements using fiber optic technology" – **prof Andrzej Ochała**
3. "Self-Apposing Stent in Left Main cases and Complex Lesion" - **dr Adam Sukiennik**
4. "Amphilimus Drug Eluting Stent in diabetic patients" – **dr Maciej Zarębiński**
