

22nd
Interventional Cardiology
Workshop

Dec 1-3 / 9-10 2021

Krakow Poland

New Frontiers
in Interventional Cardiology

e-NFiC: Medical development requires multidisciplinary approach
Medical - Engineering meeting

10 December 2021
15:00 - 16:30

Panel: Dariusz Dudek, Klaudia Proniewska, Adriana Złahoda-Huzior, Arif Khokhar, Rossella Ruggiero

15:00-15:10

Advanced Image Processing for simulation purposes

Adam Piórkowski

15:10-15:20

discussion with segmentation laboratory

Elżbieta Pociask, Joanna Sorysz, Kuba Chrobociński, Zofia Schneider, Artur Leśniak

15:20-15:30

3D printing for medical purposes

Rafał Rumin

15:30-15:40

discussion with 3D printing laboratory

Dariusz Sala

15:40-15:50

Multidisciplinary Device Development of a First Polish Biodegradable Vascular Scaffold

Karolina Łukasik

15:50-16:00

Role of pre-clinical research in new device development

Piotr Buszman

16:00-16:10

discussion with start-up teams

16:10-16:20

Mixed Reality in medical practice

Maciej Stanuch

16:20-16:30

discussion with holography team

Jakub Kasprzak, Andrzej Skalski, Michał Kluska

Summary
