

25th Interventional Cardiology Workshop

December 4th- 6th, 2024
Krakow, Poland

Wednesday, December 4, 2024

Advanced Echocardiographer Workshop

9:30 – 11:30

Echopack GE HealthCare - Echocardiographer Workshop

Chairpersons: Danuta Sorysz, Tomasz Kukulski, Piotr Pysz

Danuta Sorysz

Optimal 3D acquisition

Tomasz Kukulski

Secondary MR and TR – how to assess the mechanism in TTE and TEE?

Piotr Pysz

Interatrial shunts

Discussion

11:45 – 13:15

Hands-on anatomical workshop

Cut the heart with the knife and with the ultrasounds

Chairpersons: Dominika Dykla, Andrzej Gackowski, Karolina Golińska- Grzybała, Maciej Stąpór, Danuta Sorysz

Wetlab

TTE / TEE simulators

13:30 – 15:00

Interventional Echocardiography

My most challenging success and nasty complication. Part I

Chairpersons: Andrzej Gackowski, Piotr Pysz, Maciej Stąpór

Piotr Pysz

M-TEER: leak – It ain't over till it's over

Karolina Golińska- Grzybała

M-TEER: surprise may happen!

Andrzej Gackowski

T-TEER: chords and wires

Monika Komar

PDA: hide and seek

Wednesday, December 4, 2024

Maciej Stąpór

Valve in MAC

15:15 – 16:15

Interventional Echocardiography

My most challenging success and nasty complication. Part II

Prowadzący: Andrzej Gackowski, Monika Komar, Danuta Sorysz

Danuta Sorysz

ASD: Too big is not too big and where is the hole?

Danuta Sorysz

TAVI: UFO's in the heart

Maciej Stąpór

TAVI: drama in two acts

Monika Komar

Severe IT: If not the door, then through the window

Łukasz Żydzik

How to help without any implants?

10:00 - 11:30

State of the art and unmet needs in Interventional treatment of acute coronary syndromes

*Session organized in cooperation with Association of Cardiovascular Interventions
of the Polish Cardiac Society (AISN PTK)*

Chairpersons: Michał Hawranek, Zenon Huczek, Adnan Kastrati, Jacek Legutko

Panel: Stanisław Bartuś, Dariusz Dudek, Artur Dziewierz, Andrejs Erglis, Paweł Gąsior, Marta Kałużna-Oleksy, Paweł Kleczyński, Janusz Kochman, Tomasz Rakowski, Zoltan Ruzsa

10:00 - 10:10

Artur Dziewierz

Timing of invasive strategy in STEMI and NSTEMI – what should we do better and why?

10:10 – 10:15

Panel discussion

10:15 – 10:25

Jacek Legutko

My personal guide to culprit lesion PCI in AMI based on 25-years of experience.

Wednesday, December 4, 2024

10:25 – 10:30
Panel discussion

10:30 - 11:00 Recorded case presentation and moderated panel discussion
Operators: **Jacek Legutko, Paweł Kleczyński, Piotr Szolc, Łukasz Niewiara** (Saint John Paul II Hospital, Krakow, Poland)
Complex PCI in acute myocardial infarction (STEMI and MVD)

11:00 - 11:10

Wojciech Wojakowski

Complete revascularization in ACS is mandatory but are we ready for mechanical stabilization of non-flow limiting vulnerable plaques? PROSPECT ABSORB, PREVENT, COMBINE-INTERVENE and beyond

11:10 – 11:15
Panel discussion

11:15 - 11:25

FEATURED LECTURE

Adnan Kastrati

Unmet needs in interventional treatment of acute coronary syndromes

11:25 - 11:30

Zenon Huczek

Closing remarks and take-home message

11:45 - 13:15

Integrated care for infarct-related cardiogenic shock

Session organized in cooperation with Association of Cardiovascular Interventions of the Polish Cardiac Society (AISN PTK)

Chairpersons: Stanisław Bartuś, Robert Gil, Michał Hawranek, Zenon Huczek

Panel: Dariusz Dudek, Andrejs Erglis, Mariusz Gąsior, Marta Kałużna-Oleksy, Adnan Kastrati, Paweł Kleczyński, Jacek Legutko, Wojciech Płazak, Zoltan Ruzsa, Mariusz Tomaniak, Agnieszka Tycińska

11:45 - 11:55

Wojciech Wojakowski

Management of AMI in Poland with special focus on treatment strategies and clinical outcomes of patients presenting with cardiogenic shock

11:55 – 12:00
Panel discussion

12:00 – 12:10

Vasileios Panoulas

Current role of mechanical circulatory support in infarct-related cardiogenic shock – lessons learned from DANGER-SHOCK, ECLS-SHOCK and other trials and registries

Wednesday, December 4, 2024

12:10 – 12:15
Panel discussion

12:15 - 12:45 Recorded case presentation and moderated panel discussion
Operators: **Stanislaw Bartuś and Team** (University Hospital, Krakow, Poland)
Protected PCI in AMI

12:45 - 12:55
Wiktor Kuliczkowski
Integrated management of cardiogenic shock – the WROCŁAW experience

12:55 - 13:10
FEATURED LECTURE
Robert Gil
The next milestone in the treatment of AMI in Poland - Integrated management of cardiogenic shock

13:10 - 13:15
Michał Hawranek
Session summary and take-home message

13:30 - 14:30

**Hot topics in the management of acute and chronic coronary syndromes –
what every interventional cardiologist should know and how to proceed?**

Session organized thanks to unrestricted educational grant from Berlin-Chemie Menarini

Chairpersons: Michał Hawranek, Adnan Kastrati

Panel: Miłosz Jaguszewski, Janusz Kochman, Jacek Legutko

13:30 - 13:35
Michał Hawranek
Introduction and session objectives

13:35 - 13:47
Janusz Kochman
Dual antiplatelet therapy after DES implantation in low bleeding risk patients with ACS and CCS –
state-of-the-art in 2024 and beyond

13:47 - 13:50
Panel discussion

13:50 - 14:02
Jacek Legutko
Management of ischemia and non-obstructive coronary arteries (INOCA) – no more research but
everyday clinical practice!

14:02 - 14:05
Panel discussion

Wednesday, December 4, 2024

14:05 - 14:20

Miłosz Jaguszewski

My personal guide to diagnosis and treatment of myocardial infarction and non-obstructive coronary arteries (MINOCA).

14:20 - 14:25

Panel discussion

14:25 - 14:30

Adnan Kastrati

Session summary and take-home messages

14:45 - 16:15

Modern management strategies of intermediate-high and high-risk Pulmonary Embolism

Chairpersons: Grzegorz Kopeć, Marcin Kurzyna, Piotr Musiałek

Panel: Aleksander Araszkiwicz, Stanisław Bartuś, Łukasz Dobaj, Dariusz Dudek, Marek Grabka, Jacek Legutko, Marek Roik, Łukasz Rzeszutko, Sylwia Sławek-Szmyt, Roman Wojdyła

14:45 - 14:55

Marek Grabka

When to call PERT for your PE patient

14:55 – 15:00

Panel discussion

15:00 – 15:10

Marek Roik

My experience with catheter-directed thrombolysis

15:10 – 15:15

Panel discussion

15:15 - 15:25

Aleksander Araszkiwicz

My experience with aspiration thrombectomy

15:25 – 15:30

Panel discussion

15:30 - 16:00 Recorded case presentation and moderated panel discussion

Operators: **Grzegorz Kopeć and Team** (Saint John Paul II Hospital, Krakow, Poland)

Transcatheter thrombectomy in pulmonary embolism

16:00 - 16:10

Jakub Stępniewski

My experience with large-bore catheter thrombectomy

Wednesday, December 4, 2024

16:10 - 16:15

Grzegorz Kopec

Closing remarks and take-home message

16:30 - 18:00

Case Review Session

Emergencies in the cathlab

My best case or worst complication

Chairpersons: Dariusz Dudek, Jacek Legutko

Panel: Michał Hawranek, Miłosz Jaguszewski, Marta Kałużna-Oleksy, Adnan Kastrati, Piotr Wańczura, Zoltan Ruzsa

16:30 – 16:38

Paweł Kralisz

RA-BIA Registry

16:38 – 16: 46

Marta Kałużna-Oleksy

Impella supported LM rota/PCI – when the access is the biggest trouble

16:46 – 16:54

Paweł Tyczyński

Left Main Coronary Artery Stenosis. Percutaneous Treatment in Orthotopic Heart Transplant Recipients

16:54 – 17:02

Barbara Zdzierak

Successful treatment of extensive coronary artery dissection with cutting balloon

17:02 – 17:10

Sylwia Sławek-Szmyt

Hat Trick Thrombosis, Bleeding, and Shock - that's why PERT must go on

17:10 – 17:18

Michał Okarski

Kardiomiopatia połogowa wymagająca leczenia radykalnego – przeszczepu serca

17:18 – 17:26

Kamil Bujak

Complex OCT-guided PCI for calcified RCA lesion with the use of multiple calcium debulking devices

17:26 – 17:34

Wednesday, December 4, 2024

Piotr Pawluczuk

Acute aortic regurgitation caused by mechanical injury of aortic valve leaflet as a complication of primary PCI with rotablation in Patient with Acute Anterior Myocardial Infarction

17:34 – 17:42

Szymon Glanowski

Rewaskularyzacja z użyciem large-bore access u pacjentki z wielonaczyniową chorobą wieńcową – niespodziewane powikłanie

17:42 – 17:50

Tomasz Suchecki

Coronary angioplasty of the aneurysmal right coronary artery in the course of IgG4-dependent disease

17:50 – 18:00

Panel discussion

Thursday, December 5, 2024

09:00 - 10:30

Complex High-Risk Indicated PCI: CHIP Summit at NFIC'2024

Part 1 – Imaging-guided left main and bifurcation PCI

Session organized in cooperation with the European Bifurcation Club

Chairpersons: Robert Gil, Jacek Legutko, Maciej Lesiak, Goran Stankovic

Panel: Sławomir Dobrzycki, Andrejs Erglis, Michał Hawranek, Ota Hlinomaz, Mirosław Ferenc, Sylwia Iwańczyk, Paweł Kleczyński, Łukasz Kołtowski, Zoltan Ruzsa

09:00 - 09:10

FEATURED LECTURE

Goran Stankovic

Key messages from the 18th consensus document of the European Bifurcation Club: “Percutaneous coronary intervention for bifurcation coronary lesions using optimised angiographic guidance”.

09:10 – 09:15

Panel discussion

09:15 – 09:25

Maciej Lesiak

My personal guide to IVUS-guided left main and bifurcation PCI – step by step approach

09:25 – 09:30

Panel discussion

09:30 - 10:00 Recorded case presentation and moderated panel discussion

Operators: **Jacek Legutko, Paweł Kleczyński, Łukasz Niewiara, Piotr Szolc** (Saint John Paul II Hospital, Krakow, Poland)

HD-IVUS-guided Complex PCI

10:00 - 10:10

Łukasz Kołtowski

My personal guide to OCT-guided left main and bifurcation PCI – step by step approach

10:10 – 10:15

Panel discussion

10:15 - 10:25

Zsolt Piroth

My personal guide to physiology-guided left main and bifurcation PCI – step by step approach

10:25 - 10:30

Robert Gil

Closing remarks and take-home message

Thursday, December 5, 2024

10:45 - 12:15

Complex High-Risk Indicated PCI: CHIP Summit at NFIC'2024

Part 2 – Imaging-guided PCI of heavily calcified lesions

Session organized in cooperation with the Euro4C-PCR group

Chairpersons: Andrejs Erglis, Mirosław Ferenc, Jacek Legutko

Panel: Piotr Buszman, Leszek Bryniarski, Sławomir Dobrzycki, Paweł Kleczyński, Janusz Kochman, Maksymilian Opolski, Tomasz Pawłowski, Zoltan Ruzsa, Piotr Waciński, Ota Hlinomaz

10:45 - 10:55

Andrejs Erglis

Imaging assessment of calcified lesions – CCTA & CS vs. invasive angiography vs. IVUS vs. OCT

10:55 – 11:00

Panel discussion

11:00 – 11:10

Paweł Kleczyński

My personal guide to Imaging-guided calcified lesion preparation before stent implantation

11:10 – 11:15

Panel discussion

11:15 - 11:45 Recorded case presentation and moderated panel discussion

Operators: **Stanisław Bartuś and Team** (University Hospital, Krakow, Poland)

OCT-guided complex PCI of heavily calcified lesions in chronic coronary syndrome

11:45 - 11:55

Zoltan Ruzsa

My indications for rotational atherectomy and IVL – case based

11:55 – 12:00

Panel discussion

12:00 - 12:10

Mirosław Ferenc

My indications for orbital atherectomy after ECLIPSE trial – case based

12:10 - 12:15

Closing remarks and take-home message

Thursday, December 5, 2024

12:30 - 13:30

Unique & advanced technologies to support complex PCI in high-risk patients

Session organized thanks to unrestricted educational grant from Philips

Chairpersons: Robert Gil, Jacek Legutko

Panel: Paweł Kleczyński, Tomasz Pawłowski, Piotr Waciński

12:30 - 12:35

Jacek Legutko

Welcome and session objectives

12:35 - 12:47

Piotr Waciński

Decalcification of lesions in coronary arteries with state-of-the-art laser systems

12:47 - 12:50

Panel discussion

12:50 - 13:02

Paweł Kleczyński

The Role of IVUS and iFR Co-registration in guiding coronary interventions

13:02 - 13:05

Panel discussion

13:05 - 13:17

Tomasz Pawłowski

The role of IVUS-guidance in reducing contrast dependency

13:17 - 13:20

Panel discussion

13:20 - 13:30

Robert Gil

Closing remarks and take-home message

Thursday, December 5, 2024

13:45 - 14:05
OPENING CEREMONY

13:45 – 14:00

Dariusz Dudek, Jacek Legutko, Krzysztof Żmudka, Stanisław Bartuś

Interventional Cardiology Workshop New Frontiers in Interventional Cardiology 1999-2024

14:00 – 14:10

Opening remarks:

Michał Hawranek - President of the Association on Cardiovascular Interventions (AISN PTK)

Robert Gil - President of the Polish Cardiac Society

14:10 – 15:40
KEYNOTE LECTURES

(12 min. lecture, 3 min. panel discussion)

Chairpersons: Robert Gil, Marek Gierlotka, Krzysztof Żmudka

Panel: Stanisław Bartuś, Dariusz Dudek, Andrejs Erglis, Marek Grygier, Michał Hawranek, Jeff Healey, Ota Hlinomaz, Adnan Kastrati, Jacek Legutko, Przemysław Mitkowski, Zoltan Ruzsa, Goran Stankovic

14:10 – 14:25

Flavio Ribichini

Renal denervation – the new treatment of hypertension

14:25 – 14:40

Grzegorz L. Kałuża

Current trends in cardiovascular innovation: reflections on the decade of TCT Shark Tank

14:40 – 14:55

Carlos Collet

Intravascular imaging or physiology or intravascular Imaging and physiology for complex PCI guidance in 2025

14:55 – 15:10

Adnan Kastrati

Dual antiplatelet therapy after DES implantation in high bleeding risk patients with ACS and CCS – state-of-the-art in 2025 and beyond

15:10 – 15:25

Przemysław Mitkowski

Temporary protection of patients at high-risk for sudden cardiac death after coronary event

15:25 – 15:40

Jeff Healey

Lessons learned from 20-years of experience with surgical and transcatheter left atrial appendage occlusion

Wednesday, December 4, 2024

15:45 - 17:15

**Cardiac Computer Tomography for cardiologists and focus
on pre-procedural planning of PCI**
Digital cardiology and updates on robotic PCI

Chairpersons: Dariusz Dudek, Jacek Legutko, Cezary Kęпка, Mariusz Kruk

Panel: Piotr Buszman, Andrejs Erglis, Aleksandra Gąsecka, Jan Hecko, Mario Iannaccone, Maciej Krupiński, Krzysztof Milewski, Igor Nykl, Łukasz Niewiara, Łukasz Wiewiórka, Wojciech Wojakowski, Aleksander Zeliaś

15:45 – 15:55

Maciej Krupiński

CCTA reporting by radiologist - what is important for cardiologist in „CAD-RADS” report?

15:55 – 16:05

Cezary Kęпка

CCTA as the first diagnostic tool for coronary artery disease. Are we ready?

16:05 – 16:15

Dariusz Dudek

My first 100 CCTA cases with pre procedural planning of PCI How to assess non invasive imaging to be ready for invasive procedure.

16:15 – 16:25

Mariusz Kruk

What are differences in vessel measurements by CCTA, invasive angiography and intravascular imaging?

16:25 - 16:45 Recorded case presentation and moderated panel discussion

Operators: **Aleksander Zeliaś, Katarzyna Kołodziej, Adriana Złahoda-Huzior, Dariusz Dudek** (Clinical Research Center, Intercard, Kraków; Center for Invasive Cardiology Electrotherapy and Angiology, Nowy Sącz, Poland)

Stenosis assessment by CCTA and invasive FFR / IVUS - optimal medical therapy without or with PCI

16:45 – 16:55

Maksymilian Opolski

How to assess added value of CCTA before complex PCI (calcified lesions, CTO) ?

16:55 – 17:05

Patrick Serruys

FAST TRACK CABG - bypass surgery planned on CCTA

17:05 – 17:15

Piotr Buszman, Dariusz Dudek, Jan Hecko, Jacek Legutko, Krzysztof Milewski

Panel discussion:

- CCTA supported by AI to assess FFR and plaque morphology
- CCTA supported by AI to prepare automatic CCTA report
- CCTA and holography before minimally invasive surgery

Thursday, December 5, 2024

15:45 - 17:15

Sesja dla Pielęgniarek i Techników

Przewodniczenie: Ewa Węglarz, Beata Lech, Agnieszka Zwolińska, Marcin Wizimirski

15:45 – 16:00

Paweł Kleczyński

Kardiologia inwazyjna- nowe wyzwania

16:00 – 16:15

Maria Budnik

Epidemiologiczne aspekty funkcjonowania pracowni i oddziału kardiologii inwazyjnej

16:15 – 16:30

Jakub Stępniewski

Zabiegi na tętnicach płucnych w pracowni hemodynamicznej

16:30 – 16:45

Łukasz Niewiara

Zastosowanie metody obrazowania IVUS i OCT- porównanie wskazań oraz najnowsze wytyczne

16:45 – 17:00

Matylda Sankiewicz

Psychologiczne aspekty opieki nad pacjentem geriatrycznym

17:00 – 17:15

Podsumowanie sesji

Thursday, December 5, 2024

17:30 – 19:00

CAD intravascular imaging race

Session in cooperation with EAPCI Young Committee

Chairpersons: Aleksandra Gąsecka, Mario Iannaccone

Team 1: Paweł Gąsior, Marta Bujak

Team 2: Sylwia Iwańczyk, Piotr Szolc

17:30 – 17:35

Aleksandra Gąsecka, Mario Iannaccone

Welcome and session objectives

17:35 – 17:55 CASE 1

Łukasz Niewiara A calcified lesion case + quiz question

Team 1/ Audience: Interactive discussion

Łukasz Niewiara IVUS/ OCT-guided PCI + quiz question

Team 1/ Audience: Interactive discussion

17:55 – 18:15 CASE 2

Krzysztof Domagała An IVUS/NIRS distal LM bifurcation case + quiz question

Team 2/ Audience: Interactive discussion

Krzysztof Domagała IVUS/NIRS-guided PCI + quiz question

Team 2/ Audience: Interactive discussion

18:15 – 18:35 CASE 3

Arkadiusz Pietrasik ACS and unclear culprit lesion + quiz question

Team 1+2/ Audience: Interactive discussion

Arkadiusz Pietrasik OCT-guided diagnosis and treatment + quiz question

Team 1+2/ Audience: Interactive discussion

18:35 – 18:50

Mario Iannaccone

Summary lecture: Multimodality imaging in CAD: the art of being selective

18:50 – 19:00

Aleksandra Gąsecka, Mario Iannaccone

Summary and key learnings

Friday, December 6, 2024

9:00 - 10:15

**Beyond obstructive coronary artery disease: state-of-the-art diagnosis
and management of coronary microvascular dysfunction**

Session organized in cooperation with the PTK Club 30

Chairpersons: Dariusz Dudek, Miłosz Jaguszewski, Mariusz Tomaniak

Panel: Krzysztof Bryniarski, Adam Janas, Wojciech Wańha, Aleksander Zeliaś

09:00 – 09:12

Magdalena Roleder-Dylewska

Non-invasive work-up of ANOCA/INOCA patients: ESC guidelines and clinical practice

09:12 – 09:24

Mariusz Tomaniak

Invasive work-up of ANOCA/INOCA patients: case-based learning

09:24 – 09:39

Recorded case presentation and moderated panel discussion

Operators: **Dariusz Dudek, Aleksander Zeliaś** (Clinical Research Center, Intercard, Kraków; Center for Invasive Cardiology Electrotherapy and Angiology, Nowy Sącz, Poland)

Complete coronary functional assessment for microvascular dysfunction with Coroventis system and Acetylcholine provocation test for diagnosis of atypical chest pain

09:39 – 09:51

Sylwia Iwańczyk

Endotype specific treatment of ANOCA patients: case-based presentation

09:51 – 10:03

Kamil Bujak

MINOCA and SCAD: keep them on your horizon!

10:03 – 10:15

Dariusz Dudek

Cased-based discussion

Friday, December 6, 2024

10:15 - 11:45

Heart Team summit @ NFIC 2024

Focus on aortic valve interventions and coronaries with the TAVI access Focus Group

Chairpersons: Zbigniew Chmielak, Dariusz Dudek, Adam Witkowski

Panel: Alessandro Beneduce, Piotr Buszman, Marcin Demkow, Arif Khokhar, Andrzej Ochała, Piotr Olszówka, Radosław Parma, Adriana Zlahoda-Huzior

10:15 – 10:25

Marek Grygier

TAVI - current needs and study review

10:25 – 10:35

Zenon Huczek

Early TAVR – What do we learn from this study to change indications for TAVI?

10:35 - 10:45

Jerzy Sacha

What to do if no femoral access - transaxillary TAVI step by step

10:45 – 11:05

Recorded case presentation and moderated panel discussion

Operators: **Dariusz Dudek, Edward Pietrzyk, Aleksander Zeliaś, Anna Polewczyk** (Heart Center, Kielce, Poland)

New generation TAVI implantation for large annulus

11:05 - 11:15

Giuseppe Tarantini

PCI before TAVI, during TAVI or after TAVI?

11:15 – 11:25

Arif Khokhar

Coronary access - internal / external or combined after TAVI? What is important in every day practice for each interventional cardiologists for angiography after TAVI

11:25 – 11:35

Alessandro Beneduce

What does it mean: Chimney and BASILICA technique and when to refer patients for such TAVI procedures?

11:35 - 11:45

Piotr Buszman

From feasibility to durability - the future of TAVR

Friday, December 6, 2024

12:00 – 12:45

Window for future - Evolut lifetime management

Session organized thanks to unrestricted educational grant from Medtronic

Chairpersons: Marek Grygier, Piotr Olszówka, Radosław Parma, Jerzy Sacha

12:00 – 12:10

Adam Witkowski

TAVI - Life time management

12:10 – 12:20

Dariusz Dudek

Markers - how important is commissural alignment and future coronary access

12:20 – 12:30

Zenon Huczek

EvolutFX - first PL experience

12:30 – 12:45

Recorded case presentation and moderated panel discussion

„Evolut FX+” - the first presentation of new TAVI. The future is now

New York, USA

Friday, December 6, 2024

13:00 - 14:45

Heart Team summit @ NFIC 2024

**Innovative structural interventions with focus on coronaries,
mitral / tricuspid valve in Heart Failure**

Chairpersons: Dariusz Dudek, Adam Witkowski, Wojciech Wojakowski

Panel: Michał Chmielecki, Andrzej Gackowski, Marek Grygier, Jan Hecko, Michał Kosowski, Andrzej Ochała, Radosław Parma, Arkadiusz Pietrasik, Jerzy Pręgowski, Grzegorz Smolka, Adam Sukiennik, Piotr Waciński

13:00 – 13:14

Krzysztof Kaczmarek

Heart Failure - which patients and when for CRT and/or TEER?

13:14 – 13:28

Andrzej Gackowski

Which patients with difficult pathology could be still treated by MitraClip ?

13:28 – 13:42

Jaroslav Januska

My experience with electrosurgery and new valve procedure, when clips are not enough any longer?

13:42 – 13:56

Wojciech Wojakowski

Which patients are the best candidates for TriClip in my experience?

13:56 – 14:11 Recorded case presentation and moderated panel discussion

Operators: Marek Grygier, Sebastian Stefaniak, Agata Markiewicz (University of Medical Sciences, Poznań, Poland)

Repair of the tricuspid valve edge-to-edge using the TriClip system

14:11 – 14:25

Dariusz Dudek

TricValve experience when clips are not enough any longer?

14:25 – 14:39

Edyta Błaszczuk

Mitral and Tricuspid Valve Diseases: The Role of Cardiac MRI

14:39 – 14:45

Closing remarks and take-home message

Friday, December 6, 2024

15:00 - 16:30

Case Review Session

**Structural and Valve Interventions, Hybrid procedures
My best case or worst complication**

Chairpersons: Dariusz Dudek, Wojciech Wojakowski

Panel: Andrzej Gackowski, Marek Grygier, Radosław Parma, Arkadiusz Pietrasik, Grzegorz Smolka

15:00 – 15:08

Arkadiusz Pietrasik

Pulmonary Veins Stenosis

15:08 – 15:16

Tomasz Podolecki

The percutaneous left atrial appendage occlusion after the AtriClip procedure

15:16 – 16:24

Dawid Ilnicki

BAV oraz PCI przy wsparciu pompą Impella CP u chorego z ciasną AS oraz MVD jako przygotowanie do TAVI

15:24 – 15:32

Natalia Janik

TAVI Valve-in-Valve procedure via alternative transcarotid access

15:32 – 15:40

Michał Okarski

Valve-in-valve transcatheter aortic valve replacement using navitor system aortic valve: single center experience – preliminary report

15:40 – 15:48

Przemysław Żurek

Wieloetapowa angioplastyka wieńcowa z perforacją LAD, z użyciem technik obrazowania i pomiarem cząstkowej rezerwy przepływu

15:48 – 15:56

Piotr Nikodem Rudziński

Double Occluder Success

15:56 – 16:04

Wojciech Żakiewicz

Coronary artery aneurysm

16:04 - 16:12

Patrycja Kurczyna

Massive Clot-in-Transit Through a Patent Foramen Ovale Successfully Managed Using the FlowTrievers® System: The First Polish Experience with a Novel Percutaneous Catheter-Directed Embolectomy Approach

Wednesday, December 4, 2024

16:12 – 16:20

Ewa Kwiatkowska

A smell of success. Shock-ecmo-impella-ECPELLA-PCI-MVD-HTx

16:20 – 16:30

Panel discussion
